Caring for your device

This device is a high-tech instrument that should be handled with care. Follow the caring instructions to ensure reliable measurement and to maximize the life span of the heart rate sensor.

Heart rate connector

Detach the connector from the strap after every use and dry the connector with a soft towel. Do not use cleaning chemicals.

Chest strap

Rinse the strap under running water after every use and hang to dry. Cleaning of strap in a washing machine or dryer is strictly prohibited.

- *Never use cleaning chemicals cause chest fast aging, shorten service life)
- *Do not stretch the strap or bend the electrode areas sharply
- *Do not store the heart rate sensor wet in non-breathing material, to prevent snap oxidation. Dry and store the strap and the connector.

Batteries

This device uses the CR2032 battery, which has been installed in the heart rate connector. The battery life is 800 hours.

Battery replacement

Using a coin, twist the battery door counter clockwise until it clicks out of place.

Remove the battery, and the battery according to the location of the regulations to dispose of the battery correctly.

Replace the battery positive (+) side up. Use a coin to twist the battery door back into place.

To avoid danger, batteries should be kept away from the children's area.
